Foam cleaning shampoo for use on carpets and upholstery

ASSIST

Spray-on carpet and upholstery shampoo

FEATURES:

Easy to use	Thanks to its special wide-surface diffuser, ASSIST aerosol spray is easy and practical to use.
Versatile	For use on wool, nylon, acrylic and other synthetic carpets. Quickly removes perspiration stains, urine stains, blood stains, food and beverage stains, cosmetics, crayons, oil, pet stains, dirt and many other soils.
Fast drying	Dries in 2 to 4 hours, depending on ambient humidity.
Also for stubborn dirt	Cleans down deep, removing stubborn grime, build-up and greasy stains.
Preventive	Anti-soiling agents prevent dust and build-up from re-depositing on the surface, so the carpet does not need to be cleaned as frequently.

APPLICATIONS:

Excellent for cleaning dirty areas, accidental spills, heavy-traffic areas such as entranceways, stairs, elevators and hallways – without needing to use special equipment.

SPECIFICATIONS:

Form Foam
Colour White
Odour..... Characteristic
Density (20°C) $\pm 0,9252 \text{ g/cm}^3$
Solubility in water Insoluble

INSTRUCTIONS FOR USE:

Vacuum the area and protect the legs on furniture. Shake the aerosol can and, holding the can upside-down, spray the product at a distance of about 60 cm from the surface. Apply using circular motions so as to cover the surface with a thin, even layer of foam. Using a brush or damp sponge, rub the foam into the surface. Let dry 2 to 4 hours, depending on ambient humidity, and then vacuum up the soil and dry particles left on the surface.

PRECAUTIONS FOR USE:

Given the fact that surfaces can have various properties, perform a spot test first on a small, unnoticeable area if necessary. See the precautions for use listed on the packaging.

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
