

Product Specification Report

1/93680002/0317

Product for cleaning rust and mud deposits in old and new heating systems. Compatible with all metals, including aluminium. Does not remove scale.

HOUSE LOOP CLEAN

Cleaner and sanitiser for closed systems

FEATURES:

Dispersant	The active ingredients in the formula effectively clean mud, sediment and rust in heating systems
Sanitiser	Effective biocides eliminate mud, bacteria and algae in the system
Anticorrosive	Effective corrosion protection in new systems

APPLICATIONS:

Specific product for all home heating systems.

SPECIFICATIONS:

Form Liquid
Colour Colourless
Odour Characteristic
Specific weight (20°C) 1.038 g/cm³
Miscibility in water Soluble
pH (as is) 9.3 ± 0.5

COMPATIBILITY:

Can be used in all types of metal piping, including aluminium, aluminium alloy, copper and steel.

INSTRUCTIONS FOR USE:

House Loop Clean should be used in the system at a 2 - 3% dosing concentration depending on the amount of mud to be removed. The dosing can be done using the special Zep line filter, or directly in the radiator using the specific Zep handpump. Start the system in normal operating conditions. Check the water after 2 - 3 days. If it is very muddy, drain the system and clean again. Contact the Zep technical dept. for advice on suitable dosing equipment. To quickly clean small systems in 1 - 3 hours, use a 5% dosing concentration as described above.

PRECAUTIONS FOR USE:

Refer to the Safety Data Sheet for more information.
