

Product Specification Report

V. 1.0

Product in aerosol form to be used before welding in order to avoid waste deposits and splashes on the welded part and prevent blowholes and cracks. Safe because inflammable.

KRONNIX WELD SAFE AERO

Anti-bubble for welding

FEATURES:

Improves the weld	Prevents the formation of blowholes and cracks in the weld beads. Does not evaporate during use therefore provides metals maximum protection for a longer time.
Protective action	Effectively protects metals during welding. Avoids the need for mechanical abrasion, useful in restoring metal surfaces where blowholes and cracks have formed.
Safe for the operator	The product is inflammable and safe during application. It is also not harmful to the skin in case of contact.
Silicone free	KRONNIX WELD AERO SAFE is completely silicone free. It does not pose problems during any paint work. In addition it rinses off easily because it is soluble in water.

USE:

KRONNIX WELD SAFE AERO is used in mechanical workshops, carpentry and maintenance departments of factories, in all area where any type of welding is carried out on various metals.

ACTIVE INGREDIENTS:

- ✓ Surfactants
- ✓ Penetrating and wetting agents
- ✓ Non inflammable propellants and solvents

DIRECTIONS FOR USE:

Shake the canister. Apply the aerosol at a distance of 20-30 cm before welding, trying to form a thin, uniform layer on the surface being treated. For best results it is recommended to clean the surface to be treated before applying the product.

PRECAUTIONS:

Please consult the safety sheet for more information.

COMPATIBILITY:

For all types of welding on all types of metal.

SPECIFICATIONS:

Physical chemical property	Value
Form	Aerosol
Colour	Colourless
Smell	Distinctive
Soluble/Miscible in water	Soluble
Net Volume	400 ml
Gross Volume	500 ml

All information in this document is based on our practical experience and/or laboratory tests. Due to the large spectrum of circumstances for usage and unpredictable human factors, we recommend that you always test our products before final usage. This technical data sheet has perhaps already been revised based on legislation, availability of the individual ingredients or newly acquired information. We can send you upon request the latest valid version, which is at the same time the sole valid version.
