Single release sanitiser

MINIFOG AS

Sanitises and freshens

FEATURES:

Sanitises	Eliminates bacterial load in the air
Fresh	Leaves a pleasant apple odour, lasting long after application
Automatic	Dispenses automatically, no need for an operator
Alternative	A valid alternative to electrically operated fog generators

APPLICATIONS:

For sanitising rooms, aeroplane cabins, railway carriages, waiting rooms, offices and other large spaces, where there is a need to sanitise surfaces and atmospheres.

INSTRUCTIONS FOR USE:

Form Aerosol
Colour..... None
Odour Apple
Flash point..... Approximately 22°C
Aerosol emptying time 2 minutes

COMPATIBILITY:

Do not use in a space where any materials are not compatible with alcohol.

PRECAUTIONS FOR USE:

Ensure all windows are closed, turn off smoke and fire detectors. Shake the can for 30 seconds before placing upright in the centre of the room or space. Activate the aerosol by pressing down and locking the total release valve button, exit the room and close the doors. After approximately 10 minutes, enter the room and open windows and doors for 15-20 minutes to ventilate.

SANITIZING ACTIVITY:

Actives	Pathogen	Test Reference	Contact Time
Bacteria	Pseudomonas aeruginosa Staphylococcus aureus Escherichia coli Enterococcus hirae	WHO formulation containing >65% alcohol	5 minutes
Yeast	Candida albicans		
Virus	Enveloped viruses such as coronaviridae		

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
