

Product Specification Report

2/15100001/0221

Dissolving acid in aqueous solution for the elimination of barnacles in the nautical sector.

STONAGE NAUTICA

Acid for the removal of barnacles in the nautical sector

FEATURES:

Concentrated	Can be used undiluted, or diluted 1:1, depending on the quantity of barnacles to remove.
For the nautical sector	Product specifically formulated for use in the marine industry.

APPLICATIONS:

Effective against barnacles on boats.

SPECIFICATIONS:

Form Liquid
Colour Colourless
Odour Pungent
Density (20 °C) 1,5 g/cm³
Solubility in water Soluble
pH (20 °C) < 1 (undiluted)

ACTIVE INGREDIENTS:

- Strong inorganic acids

COMPATIBILITY:

Corrosive in aluminium and iron, compatible with stainless steel.

INSTRUCTIONS FOR USE:

Apply by immersion or spraying. The product acts quickly, and the barnacles will be removed instantly, so it is necessary to rinse abundantly after applying the product. Can be used undiluted or diluted 1:1 with water, depending on how much material needs to be removed.

PRECAUTIONS FOR USE:

Concentrated acid solution. Use only in well ventilated areas. Use gloves and safety goggles and follow the instructions on the MSDS. Limit contact times with aluminium and brass. **Contains explosive precursors, regulated according to Reg 2019/1148 (art no. 9). ACID NITRIC (CAS 7697-37-2) 46 % w/w. Not salable to retail.**

All information in this document is based on our practical experience and/or laboratory tests. Due to the multiplicity of conditions for usage and variable human factors, we recommend that you always test our products for suitability prior to use. At any time, this version of the product specification report may have been revised based on legislation, availability of the individual ingredients or newly acquired information. The current approved version is available upon request.
